

# Baymax Oreo Pops

## Ingredients:

- Double Stuffed Oreos
- White Chocolate Bark
- Black Gel Icing
- Lollipop Sticks

## Directions:

Melt white chocolate in microwave for 60 seconds. Stir. If it needs more time, do so in 15 second intervals. Dip the Oreos in the melted white chocolate, covering both sides of the cookie. After the cookie is dipped, lay it out to dry on wax paper. Once your cookie has dried, carefully place the lollipop stick in, being careful not to pinch the cookie (they are fragile and will break). For the Baymax face, draw two dots with the black gel icing and then connect with a line. Enjoy!
